

## Construction Excellence Recommendation

CONSTRUCTION EXCELLENCE

Submitted by-  
Mary & Don Nelson  
Bridgetower Community  
Meridian, Idaho

**Who is your Idaho Home Builder?**

**Bill Davis Construction**

**When was your home completed?**

**August 2004**

**Construction Type?**

**Semi-Custom** *(Modifications to Existing House Plans)*

**Idaho Home Builder Recommendation?**

When we were looking for a home, we knew BridgeTower was where we wanted to live. Of all the models, Bill Davis Construction had the best model for our family's needs. During the construction process, Bill was available to answer any questions we had. He brought a wealth of experience and had suggestions for us when we wanted this or that "tweaked". Bill Davis Construction had highly professional subcontractors. We lived in the area and frequently went by the house during construction. Bill, Brayden and all of the subcontractors always hard working and friendly.

**Why should your builder be recognized for Construction Excellence**

If we were to build another home, Bill Davis Construction would be our choice for builder.

**Tell us about your community**

**BridgeTower** - we loved that there was a school in the neighborhood, that the larger subdivision was broken down into smaller communities or circles, that there were pools and the location was perfect for our work.

**Share your experience with your realtor-**

The Realtor representing us when we purchased our home in BridgeTower was Mike Swope of Swope Investment Properties. He and his assistants attended different meetings we had with the BridgeTower Realtors and our builder. They even had a house warming party for our family! I enjoyed working with them on this home and two previous homes we had purchased so much, that I decided to join them as a Realtor in their office.

## **What advice would you give someone buying or building a new home?**

Don't be afraid to ask a lot of questions - of your builder, Realtor and other homeowners who have recently built.
