Somerset Heights

**Who is your Builder?**

**Burgundy Homes**

**When was your home Completed?**

**Construction Type?**

**Custom Home**

**Builder Recommendation**

We found Christian through friends and references. We selected him because of the quality of the homes we saw that he built as well as his attention to detail and hands on approach. Christian was very responsive, kept great records and was very proactive about communicating about decisions and tradeoffs about our house. Everything was top quality and Christian helped us by giving us the information we needed to make good decisions.

**Why should your builder be recognized for Construction Excellence?**

Burgundy Homes builds top quality homes that are also beautiful. Christian ensures that he is meeting his customers expectations by meeting with them regularly to go over all the details so there are no surprises.

**Is your home Energy Star, NAHB Green or LEED Certified?**

No. Our home was "almost" energy star, but we opted not to pursue this for some design and cost reasons. Christian outlined how we could make it energy star compliant but we opted out.

**What is the best feature or element of your home?**

The kitchen. Large, great lighting, functional - we worked with Christian, our architect and the kitchen designer. It is admired by anyone who sees the house.

**Where is the best place to shop for home decor?**

**Tell us about your community.**

Somerset Heights - selected because of proximity to downtown and foothills locations

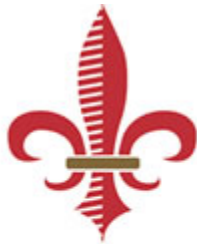

**Share Your Experience with your real estate agent.**

**What advice would you give someone buying or building a new home?**

Spend all your upfront time on the plans, then worry about finishes.
