Who is your Builder?

Eric Evans Construction

When was your home Completed?

Completed

Construction Type?

Custom Home

Builder Recommendation

Brian & I have known Eric for a number of years and know what his work is like. We came up with the floor plans and just turned him loose to adjust, change, experiment - do as he wanted. The result was unbelievable. The house is fabulous!

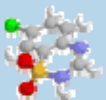

Why should your builder be recognized for Construction Excellence

Eric cares about every aspect of the new homeowner's experience. He goes well above and beyond what any other home builder would do.

Is your home Energy Star, NAHB Green or LEED Certified?

What is the best feature or element of your home?

Our home is very customized, from the theater room to the hot tub room to the sports bar room. Rather than just a 'guest' room, we had Eric build a "guest suite" which is very unique and private for company staying over. My personal favorite would be my library with a 14' ceiling and book shelves on two walls - floor to ceiling.

Where is the best place to shop for home decor?

Jacob at Franklin Building Supply was most helpful in the selection process for flooring and window coverings. he's always there to answer any upkeep questions on the materials installed!

Tell us about your community.

Strada Bellissima Subdivision. It's a beautiful high end subdivision. Convenient access to everything.

Share Your Experience with your real estate agent.

What advice would you give someone buying or building a new home?

If at all possible - Use Eric Evans to build your home!
