

## Recognition for

**Submitted by-** Benjamin & Laura Chavez  
Bridgetower Community  
Meridian, Idaho

**Who is your Builder?**

**Whitney Homes**

**When was your home Completed?**

**09/2006**

**Construction Type?**

**Custom** (Home designed from scratch)

### **Builder Recommendation**

We found our builder through a friend. Ron Whitney designed our home to fit our specific needs and was so accommodating to all of our requests. We loved the design, looked at some existing homes they had built, and decided to proceed with Whitney Homes. They made the entire process of building our home so easy and stress free I would highly recommend Whitney Homes to anyone interested in building a new home. The quality and craftsmanship of our home is incredible. Their attention to detail is phenomenal. I wouldn't change one thing about our home or the experience we had building it!

### **Why should your builder be recognized for Construction Excellence**

Again, their craftsmanship and attention to detail is outstanding. Their customer service was excellent. Whitney Homes was also right on schedule throughout the entire process. We closed on the day we were told we would and everything went smooth as can be. After living in the home for two years we are still just as happy with it as the day we moved in!

**Is your home Energy Star, NAHB Green or LEED Certified?**

### **What is the best feature or element of your home?**

One of my favorite elements of our home is the built-in closet organizers. It may seem small but in our previous home, that we also had built brand new, closet organizers and many other features were considered upgrades rather than standard as in our Whitney Home.

### **Where is the best place to shop for home decor?**

### **Tell us about your community.**

The community we live in is Bridgetower. We chose this community one for the larger lot sizes they seemed to have compared to other subdivisions we looked at. We really liked the idea of the Pods. Almost every circle or "pod" in Bridgetower as just one entrance and one exit. That was very appealing to us.

### **Share Your Experience with your real estate agent.**

### **What advice would you give someone buying or building a new home?**
